

RECYCLE RIGHT!

Please separate **recyclable paper and boxes** from wet waste.

It is important to keep paper and cardboard recycling clean and dry.

YES! These paper products are recyclable:

✓ Cardboard boxes of any kind – dry food, cosmetic and medicine boxes; roll cores, packing cartons (flattened)

✓ Liquid packaging, (milk and juice cartons) paper cups

✓ Newspapers, Magazines and brochures, including glossy varieties

✓ Office and shredded paper, envelopes

✓ Old telephone directories

✓ Paper giftwrap (sticky tape removed)

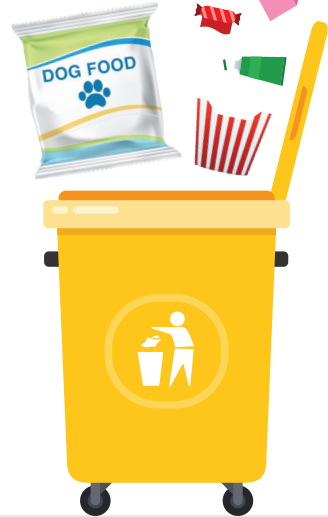

✓ Hardcover and paperback books

Throw these in the rubbish bin:

- ✗ Food waste
- ✗ Wet/dirty paper and cardboard
- ✗ Sticky notes
- ✗ Used paper plates, disposable nappies, tissues and toilet paper
- ✗ Wax-coated, foil-lined or laminated boxes
- ✗ Cement and dog food bags
- ✗ Foil gift wrapping, carbon and laminated paper

Keep these in a separate recycling bin:

- ✓ Tins and cans
- ✓ Glass
- ✓ Plastics

7 million in 6 years

Tonnes of recyclable paper and cardboard kept out of our country's landfills and remade into new products.

SHOPPING TIP:

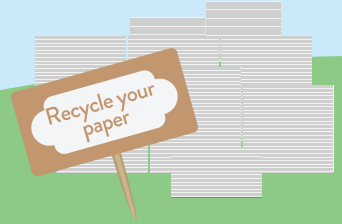

Recycling makes a difference

Recycling provides a sustainable income for tens of thousands of informal collectors and extends the lifespan of our landfills.

3m³

Landfill space saved by recycling **one tonne** of paper.

The paper fibre from recycled paper, boxes, liquid cartons and paper cups are used to make a range of products that we use everyday!

The plastic and foil layers can be used to make crates, roof tiles and furniture.
